C. Statistical Terms

In a community of 10,987, 100 home-owners were randomly selected and asked the amount of their January electricity bill. From this group, a mean of 760.98 pesos is obtained.

Identify the correct statistical term for the following items:

```
a) the mean bill for all homes
b) the community of 10,987
c) the computed 760.98 pesos
d) the electricity bill for one home-owner
e) the 100 home-owners
```
